

Geologic Specialist

### **FIELDS OF EXPERTISE**

Environmental Geology, Landfill Services, Field Services

### **HIGHLIGHTS OF EXPERIENCE**

Mr. Rebisz has 2 years of experience in geology, environmental science, and field services. His primary areas of expertise include water quality sampling, environmental monitoring, remedial oversight, system operation & maintenance. Below is a sampling of Mr. Rebisz's key project experience.

- Interpretation and mapping of hydrogeologic and geologic systems
- Well pump and drawdown tests
- Soil and groundwater sampling for site characterization of contaminated sites
- Groundwater and leachate sampling for active landfill compliance
- PA Act 2 Site Characterization and Cleanup Reporting
- Well installation, test borings, logging
- Diesel fuel spill response, clean-up and remediation
- GIS mapping for Landfill Compliance, and Diesel Fuel Spills
- Environmental Emergency Response
- Storm Water Sampling/Inspections
- Nitrate Report and Studies
- Environmental Site Assessments (Phase I and II), Preliminary Site Assessments including the collection of background information, regulatory records, site visits, aerial photograph interpretation, Department of Environmental Protection file review and report preparation.

### **EDUCATION**

B.S. Earth Science, Dickinson College, Carlisle, PA, 2019

### **CERTIFICATIONS & TRAINING**

40 Hour Hazardous Waste Operations (OSHA 1910.120)

8 Hour Hazardous Waste Operations Refresher (OSHA 1910.120)
